WORK EXPERIENCE

Senior Software Engineer VENTION

03/2021 - Present

Košice, Slovakia

20+ years in business, 20+ client IPOs supported, \$15B+ raised in client acquisitions, 10+ unicorn exits powered by solutions.

- Successfully led a cross-functional team of **10+** members from initial project planning through to production release, ensuring alignment with business goals and technical requirements.
- Designed and deployed ETL pipelines for custom file formats using byte-level parsing, achieving **100%** test coverage and automating execution via AWS S3 and Step Functions.
- Maintained and enhanced **infrastructure** by updating Terraform and Docker configurations for AWS (S3, Lambda, IAM, VPC), improving deployment consistency and scalability.
- Reached more than **90%** test coverage using Pytest, reducing regression bugs and accelerating QA cycle through CI/CD integration.
- Standardized Python codebase via **PEP 8** compliance and custom PyCharm templates, enhancing code readability and reducing code review times.

Contact : Alexander Skomyanov - Group Manager

Software Engineer COGNITEQ

02/2020 - 02/2021

Hrodna, Belarus

150+ experts, 300+ successful projects, 15+ years of experience, 100+ clients

- Oversaw **full software lifecycle** — maintenance, testing, debugging, deployment, and documentation — ensuring stable operation of production systems.
- Automated infrastructure provisioning with Terraform for AWS Lambda, API Gateway, and S3, reducing environment setup time by **40%**.
- Built Python background scripts using Pandas to process and import CSV files with **20+** parameters, streamlining data ingestion pipelines.
- Integrated multiple **third-party APIs** to automate event fetching, data parsing, and booking operations, increasing system responsiveness.
- Created a therapist-matching algorithm using **5+** user and session parameters, improving match accuracy and session success rates.

EDUCATION

Software Engineering

College of Engineering, Technology and Design

09/2019 - 07/2022

Hrodna, Belarus

- Studied core principles of software engineering at one of Belarus's leading technical colleges, balancing theoretical foundations with hands-on projects.

SKILLS

Backend & Frontend: Python, PHP, Bash, PowerShell, SQL, Django, Flask, FastAPI, Pandas, NumPy, Celery, Sentry, Pytest, Unittests, ReactJS, Vue.js, HTML, CSS, JS, Bootstrap

AWS Cloud Services: VPC, EC2, S3, ELB, ASG, Route53, CloudFront, Lambda, API Gateway, RDS, DynamoDB, ElastiCache, SQS, SNS, ECS, ECR, EKS, KMS, WAF, Shield, IAM, CloudTrail, CloudWatch, CloudFormation, Cognito, Fargate, Security, Groups, SSL & TLS, Elasticsearch, Logstash, Kibana

Databases: RDS (Aurora, PostgreSQL, MySQL), SQLite, DynamoDB, MongoDB, ElastiCache, Redis

DevOps CI/CD: Terraform, Ansible, Docker, Kubernetes, Grafana, Prometheus, Jenkins, GitHub, GitLab, BitBucket

Project Management: Agile, Scrum, API & Tech documentation, JIRA, Asana, Trello, Jibble, Google, Jupyter, Confluence

PERSONAL PROJECTS

Projects Portfolio - Website (11/2022 - Present) 

Music Label - Website (01/2023 - Present) 

Wanda - New Tab Changer (10/2024 - Present) 

Party Events - Telegram Bot (02/2022 - Present) 

CERTIFICATES

AWS Solutions Architect - Associate (09/2023) 

AWS Cloud Practitioner (08/2023) 

EF SET English - C2 Proficient (03/2024)
